

UPDATING INFORMATION ON THE KIWIQUALS AND WHICH COURSE WHERE WEBSITES

Changing qualification details via the STEO website will also affect the KiwiQuals and Which Course Where websites. Information is passed to these websites via the STEO website and the TEC:

Things to note:

- All changes made to qualifications via the STEO website must be approved by TEC before the changes can appear on KiwiQuals and Which Course Where. Please note that as the process to update KiwiQuals is not automated, changes to KiwiQuals may take longer to appear than on Which Course Where
- You can download extracts of your Course and Qualification information from the Which Course Where website
 - To do this, follow the “Qualification Search” and “Course Search” links from the ‘Applications’ tab on the STEO website
 - A “Guide to downloading Qualification and Course Registers from Which Course Where” is available on the STEO Downloads page:
